

GAME OF ZONES

ADVENTURE IS COMING!

A fun team activity, combining indoor and outdoor team challenges, that require steady nerves, tests of memory, physical ability and clear communication skills.

Game of Zones challenges are completed by a combination of full teams, pairs and individual team members. Using GPS Geo-cache style navigation, teams must locate the 12 Game Zones which are located within Delphi's 300 acre forest park.

Unsuccessful completion of a Game Zone challenge results in teams losing a life. The winning team is the team with most lives at the end of the Game. Games may vary and include tests of balance, memory, skill, stealth, tactics and luck!
