

Get your team focused and energised for our Delphi search and rescue mission. A varied, interactive, fun event where collective efforts are needed for success.

Based in the Delphi Forest, an SOS call will alert your team of an incident in the Forest Wilderness. **Your Mission:** Locate and rescue the casualty.

Due to bad weather, the rescue Helicopter cannot locate the casualty. Your teams must find the care packages dropped by the helicopter within the Delphi Wilderness. These care packages are essential in the safe transport and survival of your casualty. 3 teams are tasked with completing various parts of the rescue mission. Each team will have a radio to maintain contact, a rucksack to collect the care packages, a map and instructions on how to use the care packages equipment.

The casualty must be located then brought to a makeshift rescue base until the helicopter has clearance to fly again. There is one major obstacle, a crevasse crossing - Communication is the key to success.

Duration: ½ or Full Day

Team Numbers: Min. 8 - Max. 40

Suitable For: Teams that enjoy physical, mental and fun challenges and perform well under pressure!

Itineraries are tailored to suit each individual teams' requirements, please call Sabina on 095 42113 or email teams@delphiresort.com
